PROFESSIONAL SUMMARY

Software Engineer with 3+ years of professional experience building scalable backend systems, cloud-native microservices, AI-powered workflow automation platforms, and enterprise applications across domains. Skilled in Java, Spring Boot, Micronaut, Distributed Systems, REST APIs, Cloud Infrastructure, and System Design.

WORK EXPERIENCE

Oracle

Member of Technical Staff

Bengaluru, Karnataka

Aug 2025 – Present

- Contributing to Oracle Health platforms by building scalable enterprise healthcare applications and workflow automation services on Oracle Cloud Infrastructure.
- Modernized legacy workflows including invoice generation, digital communications, refund management, guarantor account management, and evaluation systems into **scalable microservices** using Java and Micronaut.
- Integrated AI-assisted agents and **Semantic Knowledge Graphs (SKG)** to improve workflow intelligence, automation, and operational efficiency.
- Collaborated across healthcare domains including revenue management, patient administration, and encounter management to improve **interoperability** and **workflow standardization**.
- Contributed to backend architecture discussions, API design, distributed workflows, and microservice integrations

Airtel Digital

Software Engineer

Gurugram, Haryana

July 2023 – July 2025

- Re-architected Airtel chatbot platform from Rasa to Java and Spring Boot microservices, cutting average response time **4x improvement (4s to 1s)** for **10M+** daily interactions across mobile app, WhatsApp, web, and voice channels.
- Developed journey-switching capability with distributed caching, reducing journey drop-offs by **30%** and boosting CSAT scores by **12%**.
- Designed WhatsApp bot workflows for lead generation and order placement, driving **12K+** incremental monthly leads for DTH acquisitions.
- Built Airtel Superhero onboarding system promoting anyone can sell concept, scaling to onboard **20K+** sellers monthly, resulting in **150K+** additional leads per month.

EDUCATION

Netaji Subhas University of Technology

Bachelor of Technology

New Delhi

2019 – 2023

SKILLS

- Programming Languages:** Java, Python, JavaScript
- Frameworks & Libraries:** Spring Boot, Micronaut, FastAPI, React.js, Node.js
- Databases:** MySQL, OracleDB, MongoDB, Elasticsearch, Redis
- Cloud & DevOps:** Oracle Cloud Infrastructure (OCI), Docker, Kubernetes, Jenkins, CI/CD
- Technologies & Concepts:** Microservices, Distributed Systems, REST APIs, Apache Kafka, Event-Driven Architecture, System Design, AI-Assisted Agents, Knowledge Graphs, Workflow Automation, High Availability Systems

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Developer Professional

AWARDS AND ACHIEVEMENTS

- Tech Tornado Hackathon Winner** (Feb 2025) — Built an LLM-powered outbound voice bot for lead retargeting; secured 3rd place among 32 teams in a hackathon organized by Airtel and Microsoft.
- Going the Extra Mile Award** (Oct 2024) — Recognized for innovation and impactful contributions to enterprise software projects at Airtel Digital.
- Best Team Award – Help & Chatbot** (Jun 2024) — Awarded for contributions to chatbot platform modernization and performance optimization initiatives.
